Moderator: **Joseph Muldoon, MD**
- 8:10-8:25am Is Rectal Cancer Still a Surgical Disease?
Controversies in treatment of patients with a complete clinical response **Michael McGee, MD**
- 8:25-8:40am Between a rock and a hard place: Balancing oncologic outcomes and anal sphincter preservation
Robert Weisman, MD
- 8:40-8:55am Robotic cylindrical APR: A good oncological operation, but what about closure of the pelvic floor defect. **Slawomir Marecik, MD**
- 8:55-9:10am “Doc, thanks for curing my cancer—now what?”
Incontinence and sexual function following rectal surgery. **Mukta Krane, MD**
- 9:10-9:40am Panel discussion
- 9:40-10:00am Refreshment Break
- Morning Session II: Benign and Malignant Anorectal Disease**
Moderator: **José Cintron, MD**
- 10:00-10:15am Anal dysplasia – It’s more than meets the eye
Vivek Chaudhry, MD
- 10:15-10:35am New approaches to fistula-in-ano: flaps, glue, plugs and LIFTS. **Marc Singer, MD**
- 10:35-10:50am Old and new approaches to hemorrhoid surgery
Jennifer Blumetti, MD
- 10:50-11:10am Chronic anal fissure—to cut or not to cut the sphincter **Herand Abcarian, MD**
- 11:10-11:40am Panel discussion
- 12:00-12:45 PM Lunch**

Afternoon Session

- Afternoon Session I: Innovative approaches to fecal incontinence**
Moderator: **Bruce Orkin, MD**
- 1:00-1:15pm Is there still a role for sphincteroplasty?
Dana Hayden, MD
- 1:15-1:30pm Sacral nerve stimulation for treatment of fecal incontinence. **Anders Mellgren, MD, PhD**
- 1:30-1:45pm Bulking agents and implantable sphincters
Joanne Favuzza, MD
- 1:45-2:05pm Panel discussion
- 2:05-2:20pm Refreshment Break
- Afternoon Session II: Inflammatory Bowel Disease**
Moderator: **Marc Brand, MD**
- 2:20-2:35 Salvaging the complicated J-pouch
Steven Stryker, MD
- 2:35-2:50pm Dysplasia in IBD – The damn DALM
John Park, MD
- 2:50-3:05pm The role of surgery in anorectal Crohn’s disease
Jacqueline Harrison, MD
- 3:05-3:20pm Is there benefit in staging J-pouch procedures?
Konstantin Umanskiy, MD
- 3:20-3:45pm Panel discussion
- 3:45-5:00pm Reception, Meet the Professors**

This symposium is an *free* educational program for general surgery residents covering both standard of care and controversies in the practice of colon and rectal surgery. The faculty represent the highest standards of surgical practice in the Chicago area. Surgeons from all of the major educational institutions as well as private practice will be participating. In addition to the benefits of the educational program, this symposium affords residents a rare opportunity to interact with faculty from across the region. Although designed for the general surgery resident, medical students, colorectal residents, general surgeons, and allied health providers are encouraged to attend.

Registration and all meals and refreshments are free. However, you must register. Register by sending an e-mail to ChicagoColorectalSymposium@yahoo.com with your full name, institution, PGY level or position, and preferred e-mail address. For additional information please contact:

- Konstantin Umanskiy, MD kumanskiy@surgery.bsd.uchicago.edu
- Marc Singer, MD MSinger1@northshore.org
- Bruce Orkin, MD bruce_orkin@rush.edu
